Career Profile

A multifaceted Front-End Developer with a solid background in Computer Science. Specialising in Software Development at SAIL Innovative, he has honed his skills and developed a passion for crafting seamless user experiences.

As a skilled UI/UX Designer, Christian effectively balances functionality with aesthetics, bringing web pages to life. His expertise in building dynamic web applications is complemented by a strong command of JavaScript, React, HTML, and CSS, enabling him to create responsive and user-friendly interfaces.

In addition to his development and design skills, Christian is proficient in using WIX Studio and the WIX app for website development, showcasing his versatility across platforms. Always eager to embrace new challenges and expand his skill set, he remains a dynamic presence in the ever-evolving world of web development.

Beyond development and design, Christian is also adept at mobile phone repairs, handling both hardware and software issues with ease.
